Max Collaboration: Want more involvement, and more choice? I've got you covered with this premium design option. Includes:

- 1 major revision
- 2 minor revisions
- Photo visualization (concept applied digitally to body part for final review)
- Priced 350-600 depending on complexity of design

Concept sketches/mock-ups will be shared digitally through e-mail. Minor revisions include small adjustments to design that take no more than 5-10 minutes. Major revisions are larger adjustments that can take up to an hour. Multiple revisions beyond the design package you purchase will result in additional charges, complete changes in concept will cause a restart of the process and a new design package will need to be purchased to continue. Design fees are separate from deposits and are non-refundable.
